HAPPY WINTER HOLIDAYS

Dear Parents,

Greetings!!!

Here we are again and December is upon us and with it comes all the excitement that the season brings. It is a busy time filled with the hustle and bustle of gift shopping for friends and family near and far. It means travelling to visit family or opening our homes to receive guests. Traditions such as visiting Shops, decorating our homes in beautiful lights is all part of the New Year celebrations.

Springdales family would like to take this opportunity to thank the staff, students and parents for their continued support. Our school is truly a committed school and it is at this time of year when the closeness of friendship, gratitude and moral values shines in our students. The new-year will bring new learning experiences, new challenges and new fun. We look forward to what new learning lies ahead for us as in **2022**.

We wish you all Peace, Joy, Hope and Happiness during this Holiday season and throughout the New Year and wish all the parents and students HAPPY NEW YEAR. **The school will remain closed for Winter Break from 1st January 2022 to 13th January for Kindergarten to class 9th and from 1st January 2022 to 9th January for class 10th.** The students should utilise this time to enjoy their hobbies and try to get some real life learning experiences.

The ***Holidays Homework*** has been framed in an integrated manner and is theme based. It will be available in the ***Notice Board*** of the school website and Google classroom for your reference. In case of any concern you may contact the class teacher of the respective class.

Regards,

SPRINGDALES SCHOOL

SPRINGDALES SCHOOL JAMMU

WINTER HOLIDAYS HOMEWORK
SESSION: 2021-22

CLASS: 7TH

THEME: SMART CITY – A STEP AHEAD TIME

Smart cities are incubators of the new Urban India. A **smart city** is a technologically modern urban area that uses different types of electronic methods, voice activation methods and sensors to collect specific data. Information gained from that data are used to manage assets, resources and services efficiently; in return, that data is used to improve the operations across the city.
ICT is used to enhance quality, performance and interactivity of urban services, to reduce costs and resource consumption and to increase contact between citizens and government.

Q: Write a newspaper report in about 120 – 150 words explaining how the meaning and history of smart cities on A4 size sheets.

- **Explain the process of selecting a city to be a smart city.**
